

Which Attachments and Bowls are Appropriate for my Machine?

All tilt-head mixers

If your head tilts upward, these are the bowls and attachments you will require
Models associated but not limited to (KSM150, K45SS, KSM90, KSM75, KSM151, K45SS)

The above model numbers are commonly referred to as :

Artisan/Classic/Classic Plus/UltraPower/Deluxe

Bowls: The tilt head machines, excluding the Mini, have two different sizes. The Artisan comes standard with a 5qt bowl and all other variations of the tilt head come with a 4.5qt bowl. The 4.5qt and 5qt bowls are interchangeable and can be swapped between the two. As such, we recommend ordering the 5 qt bowl below, as it's a definite upgrade!

5qt Bowl w/ handle

Accessories

The tilt head units, while being able to use the same bowls interchangeably, also use the same attachments (hook/whisk/paddle). Below are the links, These are all KitchenAid OEM replacements.

Paddle -

K5A/K5SS 5 Qt Bowl Raise Styled Machines

Some of the common model numbers (K5A,K5SS, KSM50, KPM50, KSMC50)

These units are identifiable the following ways. Firstly, it will have a removable back cap on the rear of the machine. Secondly, there will be four large bolts mounting the motor head to the neck of the unit. There will also be plastic brush caps on each side of the machine. Here is a picture of a representation of the K5 Models.

All K5 variations use the same bowls and attachments.

K5A/K5SS Cont.

Consider a scraping edge beater! The Beater Blade is one of the few models available for the K5SS style units and is superior in every manner!

Beater Blade 5LM

Professional HD 5 Qt/Professional 6000 HD

The Professional HD 5 qt unit is a hybrid between the Professional 600 and the K5SS style mixers. It has the same head, motor and transmission as the Professional 600 but uses the same Paddles as the K5SS. While using the same paddles as the K5SS, it uses its own bowl that is also dissimilar to what the Professional 600 Uses. The Professional 6000 HD also shares the same bowl and attachments as the Professional HD.

On the band of the mixer, it will say Professional HD and the model number associated will always start with KG25.

Professional 600/Professional 5 +

The professional 600/ Professional 5 + units are synonymous in terms of what bowls/attachments will work with them. The pro 600 comes standard with a 6 qt bowl and the pro 5 plus comes standard with the 5 qt bowl. These two bowls can be used interchangeably between the models as they are considered “wide” bowls. The “wide” series also fits the 7 qt proline and 8 qt commercial, whose arms will also fit the 5 and 6 qt bowls.

Models associated with the Pro 600/Pro 5 Plus are as follows.

Professional 600, Professional 5 Plus, Professional 6, Epicurean

Model number will generally start with the following

KP26,KT26, KL26, KN26, KV25

Bowls

The 6 qt bowl fits the 5 plus and is considered an upgrade, it should be purchased as opposed to the 5qt.

Proline 7 qt and Commercial 8 qt DC Motor Mixers

The Proline 7 qt and 8 qt DC mixers are synonymous in terms of what bowls/attachments they use. The 7&8 qt machines can also hold the 5 and 6 qt wide bowls of the professional 600 lineup. They also share the same attachments. The main difference between the 7&8 qt is the bowl size as the internals and the body are the same.

If you have a 7 or 8 qt KitchenAid, the following bowls and attachments will fit.

Bowls

We do have inventory of the 7&8 qt bowls, to inquire please send an email.
